

4. Identifikasilah nomor-nomor pada kode program berikut ini :

```
public class Laptop extends Computer {  
    public Laptop(String brand, String type, int price, int speed) {  
        super(brand, type, price, speed);  
    }  
    public static void main(String[] args) {  
        Laptop mylaptop = new Laptop("Lenovo", "ThinkPad", 6000000, 4);  
    }  
}  
class Computer {  
    String brand;  
    String type;  
    private int price;  
    int speedofprocessor;  
    Computer(String brand, String type, int price, int speed) {  
        this.brand = brand;  
        this.type = type;  
        this.price = price;  
        speedofprocessor = speed;  
    }  
    public void setPrice(int price) {  
        this.price = price;  
    }  
    public int getPrice() {  
        return price;  
    }  
}
```

The image shows a Java code editor with the following code and annotations:

- 1: `public class Laptop extends Computer {`
- 2: `super(brand, type, price, speed);`
- 3: `Laptop mylaptop = new Laptop("Lenovo", "ThinkPad", 6000000, 4);`
- 4: `class Computer {`
- 5: `private int price;`
- 6: `Computer(String brand, String type, int price, int speed) {`
- 7: `public void setPrice(int price) {`
- 8: `public int getPrice() {`
